BREAKFAST INCLUDED!!

Your Room on Fire

- ⇒ What is the #1 cause of fires on campus?
- ⇒ What are the potential hazards in your room right now?
- ⇒ What is the typical behavior of the people living under the same roof as you? How about when there's alcohol?
- ⇒ How long before your room reaches "Flashover", when no one survives?

Out **Friday night** at your favorite campus bar. A fight breaks out on the dance floor, people are screaming and rushing to the main entrance door — and they're trapped there, pinned against the doors suffocating. *Why?*

Will you make it out?

- ⇒ What if a fire breaks out at Candyland? It's a public facility, so you should be fine, right?
- ⇒ How many people at a bar before it's overcrowded?
- ⇒ Is there only ever one way out?
