a) Input for Temporary and Permanent Bicycle Parking – Michael Brunk, City Arborist

Brunk presented information on proposed permanent and temporary bicycle parking (see attached). He asked the Commission for input regarding the proposed bike parking locations. Discussion ensued regarding the proposed locations and the various styles of bike racks.

Hoyle inquired if there were plans to replace outdated racks which are already installed in various locations; Brunk no formal plan was in place but those locations could be prioritized. Hoyle also noted that bike parking should be convenient to community and special events.

Commission members suggested bike parking outside several Urbana businesses. Hoyle suggested creating a program to encourage business owners to install bike parking near their entrances. Bowersox-Johnson suggested contacting the Urbana Business Association to solicit input from business owners on where they would like to see bike parking installed.

Hoyle inquired whether the proposed locations would accommodate bikes with carts or trailers. Brunk said he would explore this. Hoyle said she would research how this is accomplished in other communities.
