## Report

### 1. Accomplishments and how grant funds were utilized during the grant period.

This year the Heartland Maker Fest had 23 makers from all over Central Illinois, including the Champaign-Urbana Fab Lab, Kindred Collage, Central Illinois Aerospace, and SaffronBySaffron. The makers exhibited a variety of projects such as building rockets, making puppets, and designing buttons. We estimate that 1600 people attended the Fest, approximately the same number as last year. The funds from the Urbana Arts Grant paid for space, food for the makers, and marketing. Most importantly, the grant allows us to hold the Fest free of charge to attendees.

### 2. The impact that the grant funds had on your artistic or organizational development.

The Heartland Maker Fest allowed Makerspace Urbana to present the values of the maker movement to a wide and diverse audience. Our mission is to provide an open community lab where people of diverse backgrounds can learn, teach, tinker, collaborate, share, innovate, socialize, and create. The Heartland Maker Fest gave the entire community an opportunity to see that mission at work. We were also able to connect with other maker/hacker labs and artists from across Central Illinois.

### 3. The number of hours spent in completing the project, including planning, administration, promotion, production, and the final presentation.

Between April 1, 2019 and April 1, 20, volunteers spent approximately 200 hours planning, promoting, and implementing the Heartland Maker Fest. This includes the work of the volunteer co-organizers prior to, during and after the Fest; the 23 makers who worked at least 5 hours on the day of the Fest (none received an honorarium and we did not track their hours prior to the Fest); and the 60 hours of work by volunteers who staffed the door, greeted attendees and helped set- and clean-up the Fest.

### 4. The number of participants in events or activities related to your grant project.

Approximately 1600 community members attended the Heartland Maker Fest on Saturday, October 5, 2019.

### 5. Description of experience working with collaborating partners.

Our collaborating partners, which included Acorn Active Media, the University of Illinois Center for Innovation in Teaching & Learning, Dixon Graphics, the Independent Media Center, Weiskamp, and, of course, our makers, were all instrumental in helping us implement such a successful event.
