

DEPARTMENT OF COMMUNITY DEVELOPMENT SERVICES

Planning Division

m e m o r a n d u m

TO: Urbana Plan Commission

FROM: Jeff Engstrom, Interim Planning Manager

DATE: September 30, 2014

SUBJECT: **Plan Case 2223-CP-14**, a request to adopt the Active Choices: Champaign County Greenways & Trails Plan as an amendment to the 2005 Urbana Comprehensive Plan.

Introduction and Background

The Urbana Zoning Administrator is requesting that Plan Commission and City Council adopt the Active Choices: Champaign County Greenways & Trails Plan as an amendment to the 2005 Urbana Comprehensive Plan. The Active Choices plan contains maps, goals and a projects list for development of off-street trails and greenways throughout Champaign County. The future trails map in this plan will replace Appendix C: Greenways and Trails Classification Map in the 2005 Comprehensive Plan as the guiding document for future off-street trails in Urbana.

The new Active Choices Plan replaces the 2004 Greenways and Trails Plan, which was incorporated into the 2005 Comprehensive Plan as an Agency Plan. Agency Plans are plans developed and approved by agencies outside of the City that may have an impact on how the City develops. Because the Greenways and Trails Classification Map found in the 2005 Comprehensive Plan is taken directly from the Greenways and Trails Plan, the revised map contained in the plan should be adopted as an amendment to the 2005 Comprehensive Plan.

The Active Choices Plan was compiled by the Champaign County Regional Planning Commission (RPC) over the course of two years. The process was guided by Greenways and Trails Plan Policy and Technical Committees, which consist of staff members from various municipalities, districts, and agencies throughout Champaign County, including staff from the City of Urbana. The RPC held four public workshops in various community locations in order to maximize opportunities for citizens to contribute to the plan.

It should be noted that the 2014 Urbana Bicycle Master Plan will supersede the Greenways and Trails Plan as the City's official bicycle planning policy document upon its completion later this

year. The Greenways and Trails Plan provides a wider overview of proposed trails for the entire county and is filed with the Illinois Department of Transportation, but the Urbana Bicycle Master Plan provides a more detailed study of the community's vision for bicycle planning. The Urbana Plan Commission and City Council reviewed the draft Active Choices plan in November 2013. Subsequently, there was a thirty-day public review period, and the plan was then adopted by the Active Choices Policy Committee and submitted to the State of Illinois for comments. The State required certain changes to be integrated into the plan, and the plan has now been accepted by the Department of Transportation.

The Urbana Plan Commission voted to recommend approval of Plan Case 2223-CP-14 to the City Council at their July 24, 2014 meeting by a vote of 5 ayes and 0 nays. City Council reviewed the case at their August 4, 2014 meeting, and voted to keep the case in committee in order to give the Bicycle and Pedestrian Advisory Committee (BPAC) a chance to review the plan. The Council recommended one change to the plan, that the classification of bicycle facilities on Broadway Avenue south of Illinois Street should be changed from Bicycle Lanes to a Bike Route on the Future Conditions Map (and from high to low priority in the Future Conditions Project Table). The change would reflect the City Council's prior action on this facility.

Staff presented the Active Choices plan to BPAC at their September 16, 2014 meeting. During their discussion, members of BPAC agreed that the Urbana Bicycle Master Plan should be the controlling bicycle planning document for the City once it is adopted, and recommended no substantial changes to the Greenways and Trails Plan. BPAC members then agreed that the plan case should move forward.

Discussion

Plan Overview

The Active Choices Champaign County Greenways and Trails Plan is an update to the 2004 Champaign County Greenways and Trails Plan. The Active Choices Plan is a guiding framework for growing and enhancing the greenways and trails system throughout Champaign County. In this context, greenways mean "corridors of open land managed for conservation and/or recreation". The "trails" part of Greenways and Trails refers to both natural trails (a type of greenway which can accommodate one or many types of non-automobile users) and bikeways (any road, street, path, or way that is specifically designated for bicycle travel). Bikeways can be on public streets or on separated paths. Trails and bikeways are considered active transportation facilities, in that they allow for any self-propelled, human-powered transportation mode.

The Active Choices Plan is unique in that most of its content is compiled from existing plans. The plan compiles existing conditions for greenways and trails, establishes goals and objectives, suggests design guidelines for facilities, and provides a comprehensive list of planned trail projects throughout the county. The plan organizes future trails projects by jurisdiction and priority, with the priorities determined by the planning document from which each project is taken. The majority of

the plan consists of existing conditions analysis and future conditions maps and project lists for all of the participating agencies throughout Champaign County. The plan also provides a list of potential funding opportunities for greenways and trails projects. Finally, there is an appendix with all of the public outreach and comments received. The complete plan can be found at <http://www.ccrpc.org/greenways/documents.php>. Staff can provide hard copies of the plan upon request. Following is an analysis of the portions of the plan most relevant to Urbana.

Plan Introduction

This section sets the vision and scope of the plan. It explains the purpose and significance of the plan and provides definitions for key terms. The vision is a detailed narrative of how active transportation will be safe and accessible to all users in the year 2033. The purpose is to compile active transportation projects and to provide a guiding framework for future trail planning. The scope includes human-powered transportation and excludes horseback riding, water travel, and off-road vehicles.

Planning Process

The Active Choices Plan was compiled by the Champaign County Regional Planning Commission over the course of two years. The process was guided by Greenways and Trails Plan Policy and Technical Committees, which consist of staff members from various municipalities, districts, and agencies throughout Champaign County, including staff from the City of Urbana. The Technical Committee met four times per year, and the Policy Committee met once per year and to approve the final draft.

Public input was a key element in the compilation of the plan. The RPC held four public workshops in various community locations in order to maximize opportunities for citizens to contribute to the plan. There was also a 30-day public comment period once the draft plan was complete. At the workshops RPC staff collected comments from citizens on how to better provide trail opportunities and connections throughout Champaign County.

The RPC gave a presentation on the Active Choices Plan to the Urbana Plan Commission on November 7, 2013 and City Council on November 12, 2013. After a final 30-day comment period, the plan was approved by the Active Choices Policy Committee on December 19, 2013. The plan was forwarded to the Illinois Department of Transportation for final approval, and accepted with minor changes.

Literature Review and Existing Conditions

The Literature Review section details plans adopted by jurisdictions since the adoption of the 2004 Greenways and Trails Plan. For Urbana, this includes the 2005 Comprehensive Plan, the Bicycle Master Plan, the University Corridor Plan, the Boneyard Creek Master Plan, and the Downtown

Urbana Plan. The Existing Conditions sections details greenways, trails, and bikeways existing throughout the County.

Goals & Objectives

There are seven broad goals and several measurable contributing objectives outlined in the plan. These goals are based on existing plans and public input. Staff has reviewed the Goals and Objectives for compatibility with Urbana's plans. The seven goals are as follows:

Goal 1: All Champaign County residents will be provided with a system of bikeways, bicycle routes, pedestrian paths, trails, and other greenways that provides connections between residences, schools, workplaces, other travel modes, major activity centers, and recreational sites.

Goal 2: All Champaign County residents will be provided with a greenways and trails system that emphasizes safety and user-friendliness.

Goal 3: All Champaign County residents will be provided with a greenways and trails system that emphasizes efficiency, mobility, and convenience.

Goal 4: The development and operation of greenways and trails will preserve and enhance the natural environment.

Goal 5: Planning and implementation of all greenways and trails system projects will be done in a coordinated manner emphasizing rational and cost-effective measures that promote economic vitality of Champaign County and its residents.

Goal 6: Greenways and Trails member agencies will provide educational materials and information about the countywide greenways and trails system to all interested persons.

Goal 7: The development and utilization of greenways and trails will improve quality of life in Champaign County.

Future Conditions Maps and Project Lists

The Future Conditions section lists every planned greenway, trail, and bikeway project in the county. It includes the location, distance, responsible party and priority level. All of this information comes from existing plans. Urbana's future conditions are listed on pages 200 through 218 (attached as Exhibit B). The maps on pages 214 to 217 are proposed to be adopted as the new Greenways and Trails Classification Map for the Urbana Comprehensive Plan (attached as Exhibit A).

Comprehensive Plan Adoption

Because most of the content of the plan is derived from other plans that have already been adopted, the adoption of the Active Choices Plan is somewhat of a formality. The projects outlined in the plan come from the Urbana Bicycle Master Plan, the Urbana Downtown Plan, the University Avenue

Corridor Study, the Boneyard Creek Master Plan and other City plans and documents. The Active Choices Plan will become an Agency Plan in Urbana's Comprehensive Plan and the maps in the Active Choices Plan will replace Appendix C in the Comprehensive Plan.

Summary of Staff Findings

1. The 2004 Champaign County Greenways and Trails Plan was adopted in the 2005 Urbana Comprehensive Plan as an Agency plan and as a map (Appendix C).
2. The 2013 Active Choices Champaign County Greenways and Trails Plan was compiled with guidance from and approval by the Active Choices Technical and Policy Committees, composed of staff from Champaign County jurisdictions including Urbana city staff.
3. The Active Choices Plan compiles existing conditions and future conditions for greenways, trails, and bikeways from existing plan documents, including the 2005 Comprehensive Plan, the Bicycle Master Plan, the University Corridor Plan, the Boneyard Creek Master Plan, and the Downtown Urbana Plan.
4. The Active Choices Plan was based on input from agency staff and the public in general collected through several meetings, forums, and online; it sets out a vision for active transportation and recommends goals and offers implementation strategies which outline the projects, policies and programs to be implemented and identifies responsible parties for those items.
5. The Active Choices Plan will serve as an amendment of the 2005 Comprehensive Plan, both as an Agency Plan and as a replacement of Appendix C, Greenways and Trails Classification Map.
6. The Active Choices Plan has been approved by the State of Illinois Department of Transportation.

Options

The Plan Commission has the following options for recommendations to the City Council. In Plan Case 2223-CP-14, the Plan Commission may:

- a) forward this case to City Council with a recommendation to approve the adoption of the Active Choices Plan as an amendment to the 2005 Urbana Comprehensive Plan.
- b) forward this case to City Council with a recommendation to deny the adoption of the Active Choices Plan as an amendment to the 2005 Urbana Comprehensive Plan.

Staff Recommendation

Based on the evidence presented in the discussion above, and without the benefit of considering additional evidence that may be presented at the public hearing, staff recommends that the Plan Commission review the draft Active Choices Champaign County Greenways and Trails Plan presented in Plan Case No. 2223-CP-14 and forward it to the Urbana City Council with a recommendation for **APPROVAL** as an element of the 2005 Comprehensive Plan presented.
