TO: Urbana Plan Commission

FROM: Jeff Engstrom, Interim Planning Manager

DATE: October 31, 2014

SUBJECT: **Plan Case 2223-CP-14**, a request to adopt the Active Choices: Champaign County Greenways & Trails Plan as an amendment to the 2005 Urbana Comprehensive Plan

Introduction and Background

At their October 9, 2014 meeting, the Urbana Plan Commission discussed a request to adopt the Active Choices: Champaign County Greenways & Trails Plan as an amendment to the 2005 Urbana Comprehensive Plan. Plan Commissioners had concerns about adopting this plan as a part of the Urbana Comprehensive Plan because of inconsistencies with existing and upcoming City plans, including the Comprehensive Plan Mobility Map and the upcoming 2014 Urbana Bicycle Master Plan. Plan Commissioners asked staff to identify inconsistencies between these plans and the Active Choices Plan.

The Active Choices plan contains maps, goals and a projects list for development of off-street trails and greenways throughout Champaign County. The future trails map in this plan will replace Appendix C: Greenways and Trails Classification Map in the 2005 Comprehensive Plan as the guiding document for future off-street trails in Urbana.

The new Active Choices Plan replaces the 2004 Greenways and Trails Plan, which was incorporated into the 2005 Comprehensive Plan as an Agency Plan. Agency Plans are plans developed and approved by agencies outside of the City that may have an impact on how the City develops. Because the Greenways and Trails Classification Map found in the 2005 Comprehensive Plan is taken directly from the Greenways and Trails Plan, the revised map contained in the plan should be adopted as an amendment to the 2005 Comprehensive Plan.

The Active Choices Plan was compiled by the Champaign County Regional Planning Commission (RPC) over the course of two years. The process was guided by Greenways and Trails Plan Policy and Technical Committees, which consist of staff members from various municipalities, districts,

and agencies throughout Champaign County, including staff from the City of Urbana. The RPC held four public workshops in various community locations in order to maximize opportunities for citizens to contribute to the plan.

Discussion

Staff has reviewed the Active Choices Plan Future Condition Maps and identified a list of minor differences between it and the proposed network map for the 2014 Urbana Bicycle Master Plan (attached as Exhibit C). These differences are listed in Exhibit D. Staff also compared the Active Choices Plan against the 2005 Comprehensive Plan Mobility Map. One difference was found: the Active Choices Plan shows a sidepath along the future Olympian Drive extending east of Route 45 to High Cross Road. On the Comprehensive Plan Mobility Map, future Olympian Drive is shown terminating at Route 45, with an arrow indicating it could be extended to High Cross Road, but the configuration of that connection is not specified.

Staff has also considered the language that would be most appropriate in adopting the Active Choices Plan. Originally staff proposed that the Plan Commission recommend to City Council to adopt the Active Choices Plan as an amendment to the 2005 Comprehensive Plan, because the Active Choices Plan contains maps that will replace the out of date Appendix C, Greenways and Trails Map, in the Comprehensive Plan.

Options

At the October 9th meeting, Plan Commission discussed several options for how to proceed. These options include recommending that Council:

- A. Adopt the Active Choices Plan as an amendment to the Comprehensive Plan, with the exception of specific changes as noted in the attached exhibit; or
- B. Adopt the Active Choices Plan as an amendment to the Comprehensive Plan, with the general stipulation that any inconsistencies between the Active Choices and other city plans shall not be adopted and the City's existing and future plans shall prevail; or
- C. Accept the Active Choices Plan as an Agency Plan, rather than adopt it as an amendment, noting the identified discrepancies between the plan and adopted City plans; or
- D. Deny the adoption or acceptance of the Active Choices Plan.

Recommendation

Staff considers Option B the best path going forward. This will allow City Council to adopt the plan and associated maps into the Comprehensive Plan, but allows for flexibility where the maps conflict with City plans. It is important to adopt the Active Choices Plan because its maps contain certain

bike and pedestrian facilities that the Comprehensive Plan and Urbana Bicycle Master Plan do not. These facilities are listed in Exhibit D. Moreover, the general stipulation ensures that any unnoticed or future inconsistencies will not be adopted.

Based on the evidence presented in the discussion above, and without the benefit of considering additional evidence that may be presented at the public hearing, staff recommends that the Plan Commission forward the draft Active Choices Champaign County Greenways and Trails Plan presented in Plan Case No. 2223-CP-14 to the Urbana City Council with a recommendation for **APPROVAL** as an amendment to the 2005 Comprehensive Plan with the stipulation that any inconsistencies between the Active Choices and other city plans shall not be adopted and the City's existing and future plans shall prevail.
