

2016 Illinois Green Infrastructure Conference: Stormwater in the Urban Ecosystem

September 15, 2016
8:00 am – 3:30 pm
I-Hotel Conference Center

Presented by the MS4 working group:

City of Champaign
City of Urbana
Champaign County
Champaign County Soil and
Water Conservation
University of Illinois
Village of Savoy

One-day free event will feature **Dan Christian with Tetra Tech** and **Steve Zimmerman with Applied Ecological Services**. Topics to be covered: green infrastructure design principles, how to use native plants in an urban area, and how to plan for community concerns, such as mosquitoes and geese. Your registration also guarantees your spot on a free tour of green infrastructure practices in the community.

Professionals will be able to earn 5 PDH and 5 CEU

Lunch is free

Register online at
