Any one (1) or more of the parties shall have the right to purchase such capital assets at their fair market value prior to any public sale. Such fair market value shall be determined by the affirmative vote of at least four out of the five administrative METCAD Policy Board Representatives of the City of Champaign, City of Urbana, Champaign County, the Board of Trustees of the University of Illinois, and Village of Rantoul. If more than one (1) party wishes to purchase such assets or a particular asset, the matter will be decided by lot.

## ATTACHMENT A

### **METCAD FUNDING FORMULA**

Each agency utilizing METCAD services shall pay for said services based on a formula which is applied annually by the METCAD Policy Board in approving METCAD's annual budget. All of these charges are used to finance the METCAD General Operating Fund.

Total user fees will be determined by calculating total expenditures and subtracting surcharge revenue received for eligible expenditures per Illinois Commerce Commission regulations while maintaining a General Operating Fund balance of not less than 10% of budgeted expenditures.

### BASIC ASSUMPTIONS

1. 85% of METCAD Fund is paid by police agencies.
2. 15% of METCAD Fund is paid by fire agencies.
3. Police agencies and Fire agencies contribute to costs based on a formula determined by the METCAD Policy Board on an annual basis.
4. The funding formula may be revised by the METCAD Policy Board as provided in the agreement.
5. The Champaign County Sheriff's Office represents all rural police agencies with regard to any fees assessed for dispatch services. In other words, the Champaign County Sheriff's Office assessment includes all fees for rural police agencies.
6. Rural fire agencies are treated as a single entity in terms of computing "fixed" costs for fire services and that cost is then divided equally among the various rural fire agencies. METCAD enters into separate contracts with each rural fire agency served and each is billed in accordance with this formula.

### POLICE DISPATCH FEES

85% of the METCAD user fee established by the METCAD Policy Board is paid by member police agencies.

Calls for service, based on the calendar year for each agency, are averaged over the previous three years. The average total calls for service are determined for all police agencies. A percentage is determined based on the average number of calls for each agency divided by the average of the total number of calls received.

The number of officers within each agency are totaled and the number of officers at each agency is divided by the total number of officers to determine a percentage.

The two percentages are averaged together to find the share for each police agency.

The calls from the rural county police agencies are counted as calls for the Champaign County Sheriff's Department.

## FIRE DISPATCH FEES

15% of the METCAD user fee established by the METCAD Policy Board is paid by member fire agencies.

30% of the charges to fire agencies are defined as fixed costs and are shared equally among Champaign, Urbana, U. of I., and rural agencies with the rural agencies considered as an equal partner (who, in turn, share that cost equally among themselves).

70% of the charges to fire agencies are charged based upon the average cost per call. This is done by taking the total dollar amount to be charged to all fire agencies in this category and dividing that count by the average number of calls per year for the preceding three-year period. The resulting cost per call is then charged to each fire agency according to the average annual number of calls per year for the preceding three-year period.

The fixed costs and the total for the variable costs are then added together to determine each agency's fee for fire dispatch services.
